# Wellhead Gas Compressor

Natural gas engine driven

Unparalleled utility

Gas well enhancement

Shell gas/tight gas

More revenue, little emission

Model: HX10

12000M3/D @ inlet pressure 4.3PsiG 53KW driven by natural gas engine

Model:HX12

22000M3/D @ inlet pressure 4.3PsiG 80KW driven by natural gas engine

Maximize your resources

Gas well enhancement services

1. Lubricating oil 2. exhaust port 3. re-injection 4. drainage port 5. oil pipeline

## Maximum Production

Total automation maintains optimal capacity for your well.

Unparalleled utility

Precision flow control in all applications from simple wellhead production to complex plunger lift systems.

Ultimate Reliability

Every feature combines time tested and proven hardware with sophisticated process controls and engineering.

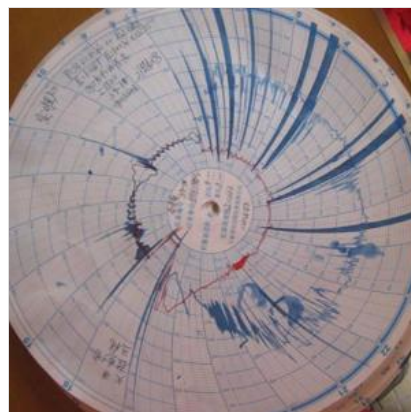

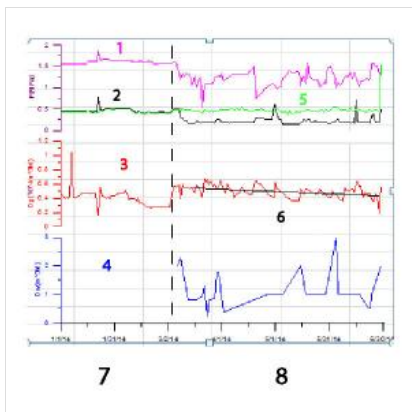

## Features

High Air wellhead compressor system provides optimal solutions for well enhancement, natural gas extraction, coalbed methane removal and many other industrial applications.

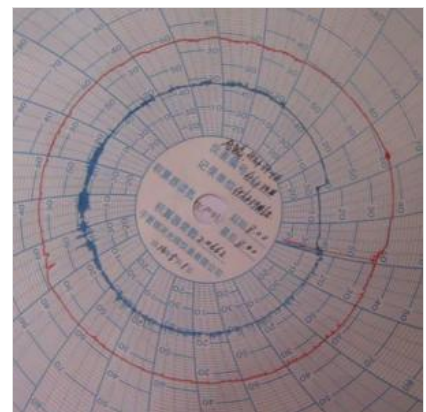

- A variety of pressure and capacity ranges, meet the requirements of diverse applications.
- Perfect fault maintenance system, for strict monitoring and protection of compressors.
- Standard natural gas engine driven.
- Explosion-proof control and motor upon requirements.
- All climate kit for cold area.
- Dedicated VFD frequency control system, to achieve a flow regulation range from 20% to 100%.
- Compressor can be directly installed on a truck or a trailer, implement the requirement of portable works.

## Sichua, China tight gas well enhancement

1. Casing pressure, 2. oil pressure, 3. daily gas, 4. daily water, 5. official network pressure, 6. single point pressurization, 7. before, 8. after

Before

After

This wellhead gas compressor driven by natural gas engine, is provided by HIGH Air Company, as a trustworthy air compressor manufacturer in China, our company also offers compressed natural gas compressor, biogas compressor, nitrogen compressor, and high pressure air compressor as well as custom air compressors available upon requests.
