Nitrogen Compressor

Flow range 1.5--15M³/min, pressure range 3--40MPa
Integrated system, compact design

The High Air full skid mounted high-pressure nitrogen compressor/nitrogen booster system is simple and easy to use, heavy duty and is easy to maintain.

Features

1. Flow range 1.5--15M³/min, pressure range 3--40MPa.
2. Choice of air-cooled or water-cooling cooler design, to meet a variety of application requirements.
3. Choice of electric motor driven or diesel drive to work around the clock.
4. Skid-mounted structure to meet vehicle requirements.
5. A variety of cylinder options for system compatibility.
6. Time-tested professional design.

Advantages

The universal modular design provides more flexibility and simplicity for the adjustment of the piston, cylinder, cylinder head and valves, so that we can provide customers with the most efficient and economical system. Our design features and advantages determine our unit able to withstand the test of time and get the user's approval.

1. Easy to install and maintain
2. Low maintenance and operating costs
3. No special foundation requirements
4. Pressurized crankcase to reduce gas leakage
5. Dynamic balance design
6. Air-cooled cylinder design
7. Small vibration, vehicle running
8. Low compression ratio and temperature rise
9. Splash lubrication, low exhaust oil content
10. Suitable for continuous or intermittent operating conditions
11. Low speed operation in order to extend the service life
12. Meets US OSHA noise standards

Application

- Offshore and land-based oil production
- Air drilling
- Oilfield nitrogen injection

- Nitrogen drilling
- Pumped storage hydro-power station
- Under-balanced drilling
- Wind tunnel trial
- Chemical Engineering and Metallurgy
- Aeronautics and Astronautics
- War industry

This nitrogen compressor with air-cooled or water-cooled cooler design, meets a variety of application requirements. HIGH Air Company, as a reliable air compressor manufacturer in China, offers a variety of industrial compressors, natural gas compressors as well as air compression solutions for clients. Our catalogued compressors include high pressure air compressor, PET compressor, CNG and biogas compressor, VRU compressor, and so forth.
